**We all have a good reason reason for living outside.**

Be sure that whatever your tastes, your style, your desires or your budget, you will find your good reasons to live outside! With materials designed to last, furniture that stands up to your daily life and uses, Naterial does everything to prove to you that your terraces, gardens and balconies no longer have anything to envy to the comfort of your interior.

# Naterial

Behind all these future favorites that will make up your exterior, there are stories and above all enthusiasts! Our teams closely follow the latest trends and are full of ideas to offer ideal combinations for your outdoor arrangements. And when you love what you do so much, you leave nothing to chance!

## You have the Choice

Naterial offers a wide range of outdoor furniture combining style, comfort and durability. Whether garden furniture, chairs or tables, each product is designed to enhance your outdoor spaces. Naterial guarantees robust and aesthetic products to fully enjoy your moments outdoors.

## Discover our Styles

### STYLE "DESIGN"

**The Design style combines functionality and comfort to enhance your outdoor spaces.**

Characterized by geometric lines punctuated with subtle curves, the Design style creates an aesthetic that is both refined and elegant. Soft, neutral colors pair with smooth materials, playing with matte and glossy contrasts. Today, the Design style is evolving toward more voluminous and tubular shapes—comfortable yet minimalist—with bold touches of color.

Design emphasizes modularity and space optimization, offering a clean, organized, and easy-to-live-in environment. Choose this style to create a modern and inviting outdoor space, perfectly balancing functionality and conviviality.

### STYLE "NATURE"

**When nature inspires your outdoor spaces for a haven of serenity.**

The Nature style highlights raw, warm materials such as wood, stone, and natural fibers to create an authentic and soothing atmosphere. Partly inspired by the Japandi trend, this style blends straight geometry with soft curves, harmonizing natural and understated tones. Today, it is evolving toward gentle, enveloping shapes—true cocoons of comfort—inviting you to recharge in a haven of softness and well-being.

The Nature style is ideal if you want to design a functional wellness space in perfect harmony with nature.

### STYLE "CLASSIC"

**Timeless elegance for a refined and welcoming outdoor space.**

The Classic style draws inspiration from a traditional, elegant, and timeless aesthetic, where noble materials and neutral tones create refined atmospheres. It combines discreet luxury and simplicity, revisiting historical references with a contemporary touch. Today, it is evolving toward a warmer elegance, enriched by brown tones and softened comfort while maintaining its refined essence.

This style is perfect if you're looking for a sophisticated, welcoming outdoor space imbued with timeless charm.

Materials guide :

# The Structure

## Metals and transformed materials

All our Material products should be covered with a cover when not in use to protect them from dirt and prolong their lifespan.

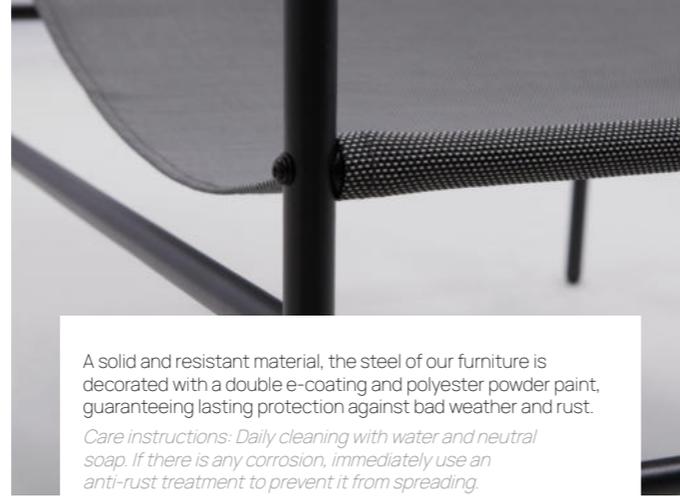

### ALUMINUM

Recognized for its lightness and its great resistance to bad weather, aluminum is the ideal material if you are looking for quality garden furniture that requires little maintenance.

*Care instructions: Daily cleaning with water and neutral soap.*

### STEEL

A solid and resistant material, the steel of our furniture is decorated with a double e-coating and polyester powder paint, guaranteeing lasting protection against bad weather and rust.

*Care instructions: Daily cleaning with water and neutral soap. If there is any corrosion, immediately use an anti-rust treatment to prevent it from spreading.*

### RECONSTRUCTED STONE

A solid material that is resistant to heat, UV and water, reconstituted stone is made from natural stone. It will give a mineral appearance to your furniture while guaranteeing solidity and resistance season after season.

*Care instructions: Daily cleaning with water and neutral soap.*

### WOOD EFFECT PLASTIC

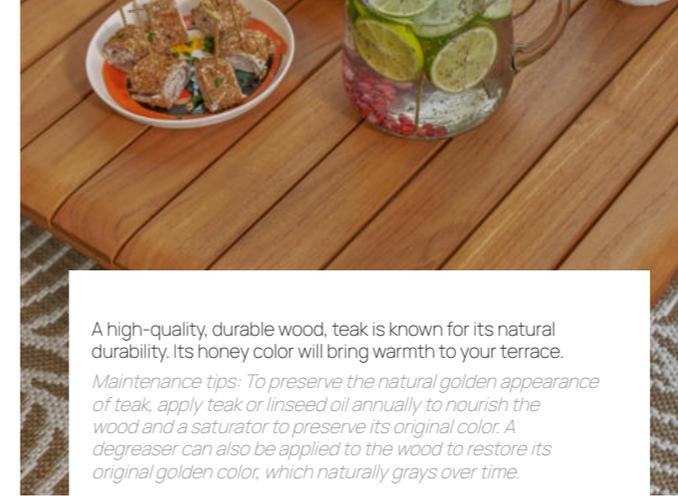

An alternative to wood, wood effect plastic brings a warm and natural touch to garden furniture, while making it easier to maintain and resistant to humidity and UV rays. A material that combines functionality and softness.

*Care instructions: Daily cleaning with water and neutral soap.*

## Naturals Woods

All our wood is FSC certified, coming from forests whose management is recognized as responsible and sustainable

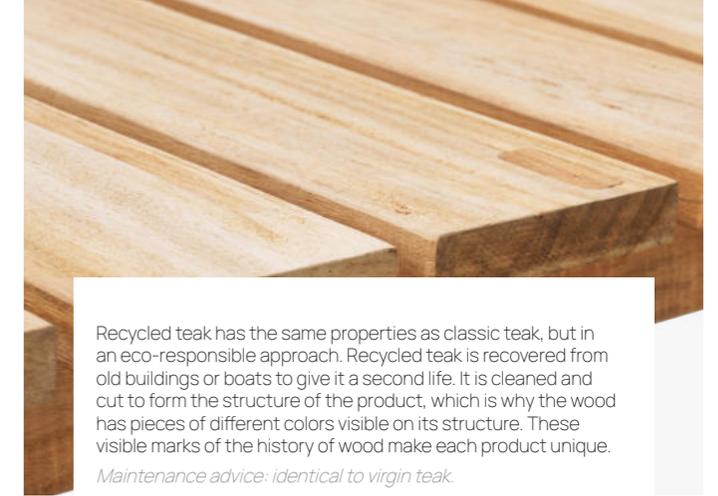

### TEAK

A high-quality, durable wood, teak is known for its natural durability. Its honey color will bring warmth to your terrace.

*Maintenance tips: To preserve the natural golden appearance of teak, apply teak or linseed oil annually to nourish the wood and a saturator to preserve its original color. A degreaser can also be applied to the wood to restore its original golden color, which naturally grays over time.*

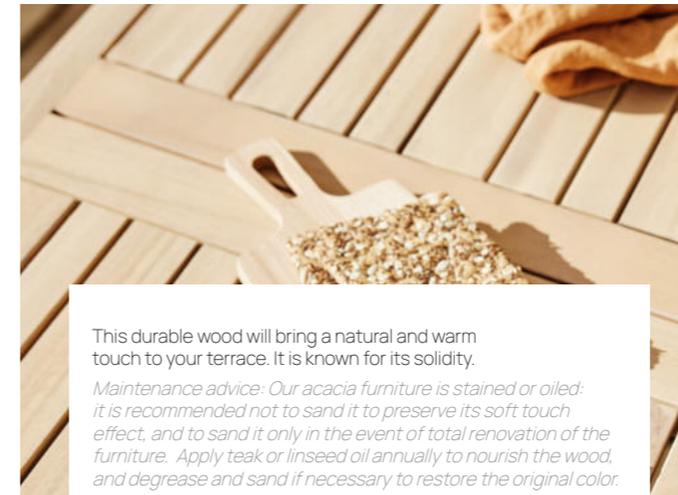

### RECYCLED TEAK

Recycled teak has the same properties as classic teak, but in an eco-responsible approach. Recycled teak is recovered from old buildings or boats to give it a second life. It is cleaned and cut to form the structure of the product, which is why the wood has pieces of different colors visible on its structure. These visible marks of the history of wood make each product unique.

*Maintenance advice: identical to virgin teak.*

### ACACIA

This durable wood will bring a natural and warm touch to your terrace. It is known for its solidity.

*Maintenance advice: Our acacia furniture is stained or oiled: it is recommended not to sand it to preserve its soft touch effect, and to sand it only in the event of total renovation of the furniture. Apply teak or linseed oil annually to nourish the wood, and degrease and sand if necessary to restore the original color.*

### EUCALYPTUS

Eucalyptus is a resistant wood which will give a soft color to your exterior.

*Maintenance advice: Our eucalyptus furniture is stained or oiled: it is recommended not to sand them to preserve their soft touch effect, and to sand them only in the event of total renovation of the furniture. Apply teak or linseed oil annually to nourish the wood, and degrease and sand if necessary to restore the original color.*

## About the structure

Elegant and resistant materials to bring style to your outdoor furniture

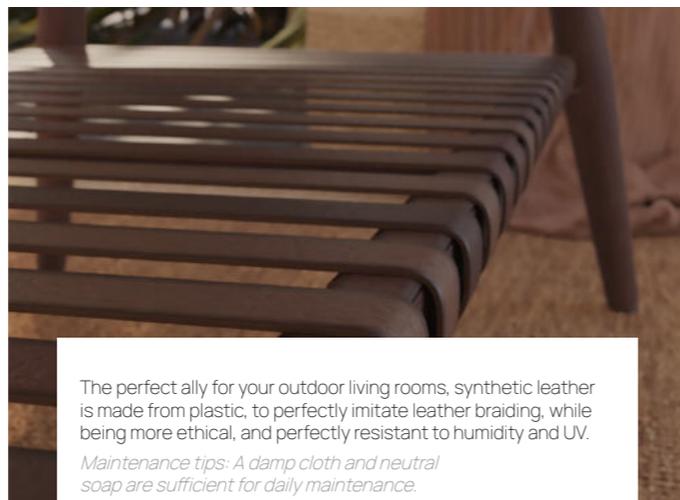

### BRAIDED RESIN

Just like natural rattan, synthetic resin is hand-woven with traditional skill which provides an elegant finish to outdoor furniture with a lightweight material, resistant to rain and UV, which will not change color over time, seasons.

*Maintenance tips: A damp cloth and neutral soap are sufficient for daily maintenance.*

### SYNTHETIC LEATHER

The perfect ally for your outdoor living rooms, synthetic leather is made from plastic, to perfectly imitate leather braiding, while being more ethical, and perfectly resistant to humidity and UV.

*Maintenance tips: A damp cloth and neutral soap are sufficient for daily maintenance.*

### SYNTHETIC ROPE

Some of our ranges have seats in synthetic braided rope. A resistant and solid material which gives the seat optimal comfort to enjoy your furniture without worrying about maintenance.

All our Material products should be covered with a cover when not in use to protect them from dirt and prolong their lifespan.

## Our fabrics

All our fabrics are moisture resistant and easily cleanable with a damp cloth

### POLYESTER

An ideal fabric for outdoor furniture, polyester is recognized for its strength and resistance to bad weather.

### RECYCLED POLYESTER

Most of our furniture is made from recycled polyester. Made from plastic bottles and other waste, it adds an ethical touch to your furniture, while retaining the resistant and waterrepellent properties of classic polyester.

### TEXTILENE

A flexible and comfortable material, textilene is above all recognized for its very good water resistance, allowing furniture to dry very quickly, and facilitates its maintenance while offering optimal comfort.

### ACRYLIC

Acrylic is the most UV resistant fabric. Acrylic furniture is easy to maintain and resistant to fading.

# Outdoor Furniture

At Naterial, we believe that the garden, terrace and balcony are natural extensions of the house. They even become an integral part of the house, offering places to arrange, spaces to decorate, spaces to live in.

Whether it is a large garden, a sunny terrace or a small balcony, your spaces are much more than simple extensions of the house: they become places of sharing, relaxation and conviviality. A meal with the family, a moment of relaxation in the sun, an evening with friends...

Our range of furniture is designed to accompany every moment, while adapting to everyone's needs. Because each exterior has its personality, Naterial offers a vast selection of styles: Nature, for authenticity and simplicity, Design, for a modern and refined exterior, and Classic, for timeless elegance. A wide and coordinable choice to create an exterior in your image, adapted to the size of your exterior. Built to last, our products combine elegance and durability. We favor solid, easy-to-maintain and weather-resistant materials to enjoy your exterior throughout the seasons.

With Naterial, imagine a space in your image and of quality that will have nothing to envy of your interior furniture.

# Sun Protection

Enjoy your outdoors while protecting yourself from the sun with our range of sun protection. Whether it's lunch under a parasol or an afternoon in the shade of a pergola, sun protection is an essential element for your outdoor activities.

Our vast range of parasols, gazebos, pergolas and accessories adapt to all outdoor sizes, but also to the style of your terrace. Thanks to durable materials and careful design, our sun protection solutions allow you to enjoy your outdoor space whatever the weather, and season after season.

# Professional Selection

Our range of professional garden furniture is designed to meet the specific needs of hotel and catering professionals. Our products are durable, weather-resistant and easy to maintain. They are also available in a wide range of styles and colors to suit all your needs. Quality of use is one of our priorities to make your daily life easier through foldable or stackable products, quick-open parasols, but also coordinateable, light and secure products, with the favor of aluminum products. All our B2B products meet the strictest dedicated standards to ensure increased security and durability. All of our professional textiles are made of high-quality polyester as well as stain-resistant treated acrylic. Made up of water-repellent or waterproof fabrics and stainless steel hardware, your product is designed from the best materials to facilitate daily maintenance and spend more time on what really matters: your activity! As with domestic products, Naterial promotes the use of recycled materials (GRS certified textile, recycled plastic or FSC wood), with a guarantee covering all components.

# Cooking Outside

Welcome to the world of outdoor cooking, where the art of barbecue is transformed into an unforgettable experience.

## **Naterial: More than a barbecue, a passion**

At Naterial, each barbecue is much more than a simple appliance, to become the heart of your moments of sharing. Our products are designed by merging innovation and traditional know-how to offer uncompromising quality.

Our products are the result of a relentless quest to perfect the outdoor dining experience. Designed with premium materials, each Naterial barbecue is robust, elegant and above all, ready to create memorable memories. Precision in temperature, ease of use, and durability are the pillars on which our creations are based.

## **The Naterial universe: The art of grilling, but not only that...**

In the Naterial universe, the barbecue becomes a celebration of flavors. Imagine yourself surrounded by your loved ones, the crackling of embers, while you prepare delicious meals on a barbecue that combines performance and design. Our models are designed to adapt to all your culinary desires and every lifestyle.

## **An invitation to discovery**

At Naterial, we believe that barbecue is more than just a cooking method. It is a way of gathering, celebrating and savoring. This is why we invite you to discover our range and transform every meal into a special occasion.

Get ready to write new stories around the fire, share precious moments, and rediscover the pleasure of good outdoor cooking.
